

Third News April 7th

Classroom News

Living Wax Museum

This week the students have been busy preparing for the upcoming wax museum. This weekend they should be working towards memorizing their speech. In class, they are working towards completing a backdrop that showcases their historical figure. Next Tuesday we will be running through a dress rehearsal. Please send your child's costume to school on Tuesday. They will change into their costume and record a video of their speech to create a bulletin board display. Our presentations are set up in a museum format. As you enter the room, walk around to each historical figure and they will tell you all about their lives. All are welcome to attend. I look forward to seeing you all on Wednesday April 12th from 8:30-11:00.

Edible Maps of Oregon

In social studies, we are looking at our state geography. We are learning about our borders, major mountain ranges, lakes & rivers, and cities. We will be working in groups to create an edible map of Oregon on Wednesday April 19th. Using an edible rice crispy base, students will be working together to create a map of the major rivers, lakes, mountains, and cities of Oregon. Your child should be bringing home a list of items their group chose to bring in. Thanks for your help to make learning about Geography fun.

Curriculum Focus for Next Week

Religion

Bullying Prevention curriculum

- Reporting Bullying
